Testimonial

I became a client of **JORDAN B. FARKAS** in the early part of 2010 when I approached Mr. Small Claims Court about legal representation for a financial claim that I had. I had tried various other means to bring some fear of God in these individuals without any success.

Jordan from the outset put me at ease with his friendly and frank advice and I felt a confidence in him that had eluded me during similar meetings with other lawyers that I had approached earlier. Being away from Canada was a major issue for me however, I felt that he understood my situation well and offered a practical solution. He not only went on to obtain a satisfactory settlement in my case for me, but offered pragmatic and street smart advice. I always felt he had my interests at heart.

I will recommend Mr. Small Claims Court and Jordan to anyone who is facing legal hassles in Canada.
