RE: Incredible Results Working With Mr Small Claims Court

One afternoon in October of 2009 I discovered damaged to my vehicle. I immediately took action and attempted to resolve this together with the person who caused the damage. When that didn't work, I immediately began a search for representation online. I came across www.MrSmallClaimsCourt.ca on the Google search engine. I put in a request to have a legal representative call me within 3 business days. Jordan Farkas called that SAME DAY! I was shocked and knew that he was the best to represent me.

Since this was the first time I have ever needed representation I asked for opinions from everyone. I had heard from friends, colleagues and family that most lawyers are so busy and that it would take a long time to have this matter resolved. It was not so with Jordan. I would e-mail him and he would e-mail me back right away. There is one e-mail I sent him at 6:02pm and he e-mailed me back at 4:41am. No matter what time I had a question my question would always be answered. I hope I never need to be represented again, but if I do, there is no question who will be representing me.

I am 22 years old and considerably very green in the law field and Jordan took the time to explain to me everything I needed to know about my case. He explained to me all the paperwork I needed to send to him, what will happen if this went to court, what I will need to do to get to the courtroom and all the preparations I will need to do once I do get to the courtroom. After sending all my paperwork, he set out to help me resolve this matter quickly.

After many phone calls and countless e-mails we came to an end with my case, short of litigation proceedings, I might add. I received a settlement cheque and am now able to have my car fixed.

For a fair flat fee, I had acquired an amazing lawyer who involved me in everything he did, from e-mails to reviewing documents, to finalizing letters, and more. He kept me in the loop and never let me wonder if this was ever going to end, he assured me it would.

I will recommend Mr Small Claims Court to anyone and everyone who needs representation, without thinking twice about it. This was an amazing experience and would not hesitate to tell anyone about their services.

Again Mr. Small Claims Court, thank you so much for everything

Sincerely,

*Jazmyne McDonald and Family
