Mr. Small Claims Court

My husband and I would like to thank you, *Jordan Farkas* from the bottom of our hearts for all the work you have done for our lawsuit against a car dealership including all your advices which *really helped us win our case. Hip hip Hurray!!!*

Before discovering your services and Mr. Small Claims Court through the internet (which has been a great blessing for us), we contacted other legal professionals/lawyers regarding our case and *YOU totally stand out as ONE who is very sincere, honest, fair, professional and had our interests at heart*. We were accurate with our initial assessment of you and glad that we used your services.

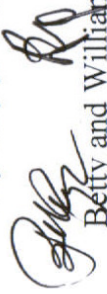

We had no idea whatsoever with regards to filing a case through the Small Claims Court before we contacted you because this was the first time we were taking someone to court thus we were really at a lost and was very anxious and apprehensive.

In our initial consultation with you through the telephone, you patiently listened to our problem and our intentions of filing a case. You efficiently explained the procedures and gave us a very honest assessment of our chances. We never felt any pressure from you to hire your services but we definitely felt your sincerity, honesty and professionalism that is why we decided to use your services.

The plaintiff's claim you prepared for us was flawless, the advices you gave us throughout our legal ordeal were invaluable and the return calls and the emails you send us promptly are greatly appreciated. I sincerely believe that anyone who is thinking of filing a case through the Small Claims Court should hire your services and let you prepare their " Plaintiff's Claim" at the very least. The legal court system is quite complicated and one will have better chances of winning if they have proper legal advice or assistance from someone like you. Your fees are also very reasonable and it is worth the money spent.

In the event we will need legal advice or legal representation in the future, we will definitely contact you again and will continue to promote you and your services to our friends and relatives. Thank you so much again and wish you all the best always.

Very truly yours,

Betty and William of Vaughan, Ontario
(Very satisfied Clients)
